

HOSSAM MOHAMED OMAR

SENIOR TECHNICAL ARTIST & LEAD VIDEO EDITOR | 3D MOTION DESIGNER

Bridging mechanical/structural accuracy with cinematic storytelling. 5+ years building high-retention edutainment documentaries, photorealistic 3D product visualizations, and custom pipeline automation tools.

✂ TECHNICAL TOOLKIT

Video & Post-Production

Adobe Premiere Pro, After Effects, DaVinci Resolve Studio, Nuke, Frame.io, VFX Compositing, Color Grading.

3D & Motion Graphics

Blender (Cycles/Eevee), Unreal Engine 5, Houdini (Karma), Marvelous Designer, Gaea, Substance 3D Painter.

Audio Engineering

Cinematic Foley, Soundscapes, Dialogue Editing, Audio Restoration, Multitrack Mixing.

Scripting & Automation

Python (Tkinter), AutoHotkey (AHK), JavaScript, AeSync Pipeline Server, Multi-Tile EXR Rendering.

⚙ CORE COMPETENCIES

- High-Retention Documentaries (13M+ Reach)
- CAD Schematics to 3D CGI Pipeline
- Custom Render & Timeline Automation
- Photorealistic Product Walkthroughs
- Mechanical Physics & Spatial Accuracy

🎓 EDUCATION

B.Sc. in Agricultural Engineering

Cairo University (FACU) | Jan 2026

Applied structural mechanics, fluid dynamics, engineering physics, and code architecture directly to CGI production pipelines.

👤 PROFESSIONAL SUMMARY

Multi-disciplinary Senior Technical Artist, 3D Specialist, and Lead Video Editor with an Engineering degree and 5+ years of experience executing high-retention edutainment documentaries and agency-level visual assets. Proven track record single-handedly delivering 30+ minute long-form edits, custom procedural 3D animations, photorealistic product visualizations, and cinematic sound design for major digital media brands reaching over 13M+ subscribers.

📁 PROFESSIONAL EXPERIENCE

Lead Video Editor & Technical Animator

Be Amazed Media (UK-Based / Remote)

Oct 2025 - July 2026

- Executed complete end-to-end post-production pipelines for long-form edutainment videos (10–35+ mins) reaching an audience of 13M+ subscribers.
- Mastered dialogue processing, stock research, cinematic sound design, and visual pacing to maintain ultra-high viewer retention.
- Designed and animated custom 3D procedural Blender graphics and mechanical animations to illustrate complex concepts.
- Built custom Python and AHK automation tools to streamline rendering and timeline sync, cutting export times across high-volume edit cycles.

3D Visualization Specialist & Technical Artist

Remote / Digital Agencies

Feb 2020 - Oct 2025

- Spearheaded 3D visualization pipelines for premium industrial, maritime, and automotive clients (*KingFisher Boats, Titan Boats, Off Grid Trailers, 23Zero*).
- Converted technical CAD schematics into photorealistic 3D assets, exploded-view animations, and cinematic product walkthroughs.
- Developed AeSync (custom local server script for live Blender-to-After Effects sync) and Python image-stitching utilities to render 256-megapixel multi-layer EXR canvases without GPU limits.
